

# LE ART *noir*

DIVERSITY IN COLOR

## *The Event*

A unique multicultural collaboration of artists from around the globe. The event takes place during Art Basel Miami Beach & provides a platform to push the boundaries on systemic racism, gender inequality and social injustice that plague today's society.

Artists will display, through visual journeys, personal and emotional stories raising awareness and encouraging activism. The moving program reveals past controversies and focuses on opening the minds of viewers to look at diversity from a different perspective.

## *The Venue*

The African Heritage Cultural Arts Center, known as the artistic home of alumnus Tarell Alvin McCraney, co-creator of the award-winning movie, Moonlight, is the nucleus of arts learning, training and access for Miami-Dade County's African-American community. The Center promotes and fosters the rich, diverse cultural perspective of people of African Heritage through high quality instruction for children and youth in dance, drama, instrumental music, vocal music, media and visual arts; the nurturing of in-house performing arts companies; a residency program for emerging artists; as well as exciting performances and visual arts exhibitions for the public.
